

# Personalised Pizza Box HELP WITH ORDERING

Before submitting an enquiry form you need to decide the STYLE of box you require. The choices are FRANCIJA, METRO, TREVISO and CALZONE. There are various size options within each style.

**FRANCIJA** - Straight forward square box.

**METRO** - Larger and rectangular sizes (up to 1 metre).

**TREVISO** - Square box with the front corners cut at 45 ° angles.

**CALZONE** - Small, rectangular for folded pizza (can also be used for fish & chips).

Having decided which box style you require, you will need to navigate to the relevant page/form on the website. Each box style has its own unique form.

**CHOOSE THE SIZE** - from the drop-down list

**CHOOSE THE BOX COLOUR/MATERIAL** - Brown or white. Aluminium lining is also an option.

**CHOOSE HOW MANY COLOURS TO PRINT** - Do not include the box colour. The maximum number of colours is 5 and each colour requires its own printing plate, so the more colours you use the more you will pay for the setup cost and for the individual boxes also.

**UPLOADING GRAPHICS / LOGO, ETC** - In order for printing plates to be made the artwork must be created in a very specific way. Wherever possible, logos and other graphic elements should be supplied as **VECTOR FILES**.

**JPG** images are sometimes usable, and if this is all you have then this should be supplied and our design team will analyse the content to see if it can be used.

**PLEASE DO NOT SEND PNG FILES** - If you send a **PNG** file we will ask you to supply another file type.

**OTHER INFORMATION** - Use this space to tell us what you would like to include in the layout, such as address, telephone number, social media links, QR code, website details, etc.

**IGNORE THE 'CALCULATE' BUTTON - PRESS 'SEND'.**

The form is designed as a 'first contact', to give us an idea of what you are looking for before we contact you.
